The business of the Company has gone down drastically and the construction activities of the Company has been stopped due to non-availability of resources during lock down period. The Company has taken necessary steps to overcome the present situation by analysing various internal and external information inter-alia the assumptions relating to economic forecasts and future cash flows for assessing the recoverability of various assets and receivables etc, investments, contract and non-contract assets, trade and non-trade receivables, inventories, advances and contract costs as on the date of approval of these financial statements. The assumptions used by the company are being tested through sensitivity analysis and the company expects to recover the carrying amount of these assets and receivables based on the current indications of future economic benefits. As the management is still assessing the impact of COVID-19 pandemic on the future period, the impact may be different from that estimated as at the date of approval of these financial statements and the company will continue to closely monitor the material changes if any, to the future economic conditions. Same situation is continuing in the FY 2022-23 due to pandemic outbreak.

15 The figures in respect of previous period have been regrouped/reclassified wherever necessary.
